

# Scholarships, tuition waiver, and dormitory subsidy:

## 01 University-sponsored benefits:

	Tuition waiver	Dormitory fee subsidy
First year	Full	Full
Second year	Full	Full
Third year	Basic tuition covered	Full

### Note:

- The qualification for tuition fee exemption and free dormitory should be applied for in the second or third year.
- The full and basic tuition fees for international students are roughly NTD 55,000 and NTD 28,000 per semester respectively; dormitory fee is NTD 6,000 – 9,000 per semester, depending on the type of rooms.
- Students receiving the awards (e.g. Elite Study in Taiwan Program, ESIT) of the Ministry of Education shall not apply for university-sponsored scholarships and benefits.
- Terms are subject to changes.

## 02 Research assistant scholarship:

Qualified individuals could be awarded pending the approval of his/her thesis advisors.

## 03 Elite Study in Taiwan Program (ESIT):

ESIT is commissioned by the Ministry of Education and National Changhua University of Education. International students will be awarded 25,000 NTD per month for a maximum of 2 years (Exact amounts to be distributed will be at the discretion of each individual school if the scholarship from the Ministry of Education is insufficient).

## 04 National University System Taiwanese Language Certification Scholarship:

Students can get a one-time financial award (up to NTD 9,000) by having obtained the following language certifications: Mandarin, Taiwanese, aboriginal Language and Hakka.

## Application

1. Announcement of admission brochure:  
January, 2023
2. Online application/Upload document for review:  
February 1- March 31, 2023.
3. Announcement of admission results:  
May 15, 2023
4. Admission notice sent to applicants:  
May 22, 2023
5. Registration:  
September, 2023

### Note:

In areas where mail cannot be delivered due to the COVID-19 pandemic, admission notices will be sent by email.

# International Program for Master of Science in Materials and Biological Technology, and Science Education

College of Science, National Changhua University of Education

# Three fields of the program

01

## Bio-Technology

Bio-Medicine  
Management and Application  
of Biological Resources  
Optoelectronics and  
Biophotonics

02

## Materials Technology

Synthetic Chemistry  
Materials Analytical Chemistry  
Advanced Materials  
Preparation

03

## Inter-Disciplinary Science Education

Inquiry-based Instruction  
STEM Education  
Technology-integrated  
Math/Science Education,  
Literacy-oriented  
Math/Science Education and  
Assessment

## About the program

The International Program for Master of Science in Materials and Biological Technology, and Science Education (IPMS-MBTS) in the College of Science at National Changhua University of Education has faculty members with diverse academic expertise. Bio-Technology, Materials-Technology and Inter-Disciplinary Science Education are the three main fields of the program. The aim of the program is to equip its students with not only the research and development capabilities of cutting-edge Materials and Biological Technology, but also the inter-disciplinary vision and scientific literacy.
